

PLA 3.0 filaments Description:

PLA is bio-based materials and easy to print for the entry level reprinter, besides PLA material's advantage such as no odor, lower melting point and good flowability, no need to post-treatment etc. Our products also have following advantages:

- (1) High precision dimension with 3.00+/-0.10mm range which make material supply easily and with high print quality;
- (2) Good roundness with 3.00+/-0.08mm range which make material supply easily and with high print quality;
- (3) Competitive price;
- (4) Order flexibility and short lead time;
- (5) Vivid color;
- (6) Good logistic control and service support

The spool dimension is 16*16*9 cm, was sealed plastic bag with desiccants.

The product specifications are listed below:

POLYMER PROPERTIES	Description
Material	PLA
Color	White/Red/Yellow etc.
Filament diameter	3.0+/-0.10mm
Roundness	3.0+/-0.08mm
Print temperature	190 - 230°C
Spool capacity	1.0kg
